**38th Annual Meeting of the
Academy of Operative Dentistry
25-27 February 2009
Fairmont Hotel, Chicago, IL, USA**

The Academy of Operative Dentistry's 38th Annual Meeting once again offers an incredible group of world-class essayists, more than 30 table clinics filled with practical information and personal demonstrations and a wonderful social program. Our meeting is the heart of the Academy and is held in conjunction with the Chicago mid-winter meeting and various other academy meetings so that attendees can maximize the benefits of their time and travel. Please plan to join your colleagues and fellow academy members to receive cutting-edge information and be revitalized in your commitment to excellence in dentistry.

Please register for this meeting no later than January 23rd (and preferably earlier) and help the Academy fill our block of rooms by staying at the Fairmont Hotel. This is essential for the success of our meeting and helps us to maintain the most advantageous meeting fee structure for our members.

Remember, the Academy of Operative Dentistry is an ADA-CERP recognized provider, and the Academy will award attendees 12 hours of continuing education at the 2009 meeting. A certificate will be provided to each registrant at the conclusion of the meeting.

SCIENTIFIC SESSION: Thursday's lineup starts in the Imperial Ballroom with Dr Richard Stevenson presenting the Richard V Tucker Lecture of Excellence, "Challenges Educators Face in Preparing Professionals in the 21st Century." Dr Wenyuan Shi follows with "Probiotic Approaches to Oral and Systemic Disease." The 28th Buonocore Memorial Lecture, "Dental Erosion: Diagnosis, Risk Factors, Prevention and Therapy," will be presented by Dr Adrian Lussi. The highlight of Thursday's luncheon will be the presentation of the Hollenback Memorial Prize to Dr James Summitt. Thursday afternoon features Dr Carlos Eduardo presenting "Dental Lasers," followed by Drs Margherita Fontana and Mathilde Peters addressing "Caries Risk Assessment in Practice." Finally, Dr Marc B Cooper will close Thursday's program with his thoughts on "Anterior Aesthetics."

Friday morning introduces a three-speaker interactive panel that should provide outstanding interplay with the audience. Dr Ana Jewett will discuss "Pulpal Reactions to Dental Materials, Dr John Witworth will present "Endodontists or Root Canal Therapists? Could We Manage Our Troubled Pulpas Better?" and Dr Tom Hilton will cover "Direct and Indirect Pulp Capping." Friday's lunch will be conducted in the Mid-America Club and will feature the presentation of the Academy's Award of Excellence to Dr Warren Johnson. The 2009 annual session will conclude with more than 30 informative table clinics presented on Friday afternoon. These table clinics are always concise, focused presentations that provide a wealth of "pearls" for us to take back to our offices. In addition, there will be hands-on breakout sessions dealing with Conservative Cast Gold, Direct Gold and Implants and Anterior Aesthetics.

RECEPTION: Finally, our Gala Reception on Thursday evening will once again provide a wonderful, once-a-year platform for socializing with all our friends and colleagues from across the country and around the world. Plan to join us in the International Ballroom at 6:30 p.m.

Please do not miss this opportunity for education, information exchange and fun. See you in Chicago in February. For more meeting information, contact Dr Gregory Smith, P.O. Box 14996, Gainesville, FL 32604-2996, USA; Fax (352) 371-4882; e-mail: greg679@cox.net.

George C Paffenbarger Student Research Award

The Academy of Operative Dentistry announces the George C Paffenbarger Student Research Award, generously sponsored by the American Dental Association Foundation. The Award is in honor of George C Paffenbarger, after whom the Paffenbarger Research Centre is named.

The Award is open to students at all levels who wish to undertake novel research relevant to contemporary operative dentistry.

The application should take the form of a protocol outlining the background, aims and hypothesis of the proposed research, the methodology to be employed and the anticipated work on the clinical practice of operative dentistry. The protocol should not exceed three typewritten pages and a budget sheet, including details for payment of the award. The budget for the proposed research may not exceed \$6,000.

The recipient of the award will be required to present a table clinic reporting the findings of the research supported by the Award at the 2010 annual meeting of the Academy of Operative Dentistry, which will be held in Chicago, February 17-19, 2010. Additional funds not to exceed \$1,000 will be made available to offset the cost of attending the meeting.

A research mentor, who is a member of the Academy of Operative Dentistry, should be named and will serve as a co-signatory to the application. If the research supported by the Award leads to a research report intended for publication, it is expected that the report will be first submitted to Operative Dentistry.

Applications for the award must be submitted electronically to Dr Tilly Peters (mcpete@umich.edu), chair of the Research Committee of the Academy of Operative Dentistry, no later than January 8, 2009.

The application packet should consist of the following documents (font Arial, 11 pt, 1.5 lines-spaced), all combined into ONE pdf-file, containing:

- cover letter (applicant)
- support letter (research mentor)
- research protocol (maximum of three pages, including abstract (maximum of 250 words), introduction and hypothesis, specific aims and work plan)
- budget sheet (maximum of one page)
- references (maximum 1/2 page)
- CV of applicant (maximum of one page)

Applications not strictly following the requested format will be returned without consideration.

The Award recipient will be announced during the 2009 Annual Meeting of the Academy of Operative Dentistry, which will be held in Chicago on February 25-27, 2009.

Operative Dentistry Home Page

We hope all our readers will take advantage of the information available by accessing our Internet home page. Our address is: <http://www.jopdent.org/>

The home page contains buttons that will lead you to answers to questions you may have related to *Operative Dentistry*. These are:

Journal: leads to information on the Editorial Staff and Editorial Board; a complete index of journal volumes; a compilation of direct gold references; highlights of the current issues, as well as a more detailed look at published Editorials.

Subscribe: leads to a secure online subscription site, complete information on subscription rates; purchasing back issues, reprints, and bound volumes; and subscription and change of address forms.

Links: provides links to the American Academy of Gold Foil Operators, the Academy of Operative Dentistry, the AADS-Operative Section, and our Corporate Sponsors. In addition, membership applications for the journal's parent academies are available for downloading.

Interest: announcements of interest to our readers, including meeting information, advertised faculty positions, and upcoming CE courses.

Authors: complete instructions for contributors to the journal and an online submission page.

Reviewers: Link for our Editorial Board to submit manuscript reviews electronically.
