1990-Dr. Richard J. Hoard
1991-Dr. Ralph L. Lambert

The Thirty-Seventh Annual Meeting American Academy of Gold Foil Operators Seattle, Washington — October 31 - November 1 & 2, 1989

Tuesday, October 31, 1989

1:00 p.m. - 4:30 p.m. Board Meeting
2:00 p.m. - 4:40 p.m. Registration
5:00 p.m. - 8:00 p.m. Welcome Party

Wednesday, November 1, 1989

6:45 a.m. - 8:00 a.m. Registration, Breakfast, Business Meeting
8:30 a.m. - 12:30 p.m. Clinic—University of Washington
9:30 a.m. - 12:30 p.m. Tour (see below)
2:00 p.m. - 5:30 p.m. Lunch and Tour (see below)
7:00 p.m. Reception
7:45 p.m. Dinner

TOUR — 9:30 a.m. - 12:30 p.m.

Underground tour of Seattle — a visit to the city that lies beneath the present-day streets beginning at Doc Maynard's Public House to Pioneer Square to International District that combines many Asian cultures — many small shops and restaurants — one can purchase anything from Humbow to Pearls to fresh tofu.

COST: \$16.00 per person

TOUR — 2:00 p.m. - 5:30 p.m.

Cruise along Seattle's harborfront, passing into the city's fresh-water lakes via the Hiram M. Chittenden Locks through ship canals into Lake Union through to Portage Bay viewing an interesting assortment of houseboats (actually visit one of these unique floating homes). Buffet Luncheon served on board! Bus transportation, narrated cruise.

COST: \$27.00 per person

Thursday, November 2, 1989

7:00 a.m. - 8:00 a.m. Breakfast and Business Meeting
8:00 a.m. - 12:00 noon Lectures:

"Gold Foil Today and In The '90's"

- Dr. Richard Hart "Teaching Gold Foil in the 90's"
- Dr. Greg Smith "Craftsmanship — a close look at the details in Restorative Dentistry"
- Dr. Richard Hoard "Direct Filling Gold and the Dental Education System"
- Dr. Lloyd Baum "Improved Powdered Gold as Restorative Material"
- Dr. Melvin R. Lund "Direct Gold — as it contributes to Education and Treatment"

SPECIAL EVENT:

Tuesday, October 31, 1989 — 5:15 p.m. - 10:15 p.m.

For a true Northwest experience — Salmon Bake at Kiana Lodge. A 30-minute trip by ferry, followed by a 15-minute bus ride to the lush setting of Kiana. The sumptuous and authentic salmon barbecue is served in an enclosed replica of a Northwest Indian Longhouse. This is an extra event offered to a minimum of 40 people at \$41 per person. This is not covered by our convention contract and we must have at least 40.

IMPORTANT NOTICE: Hospitality Room

THE FOUR SEASON OLYMPIC HOTEL

Open: Tuesday Evening, October 31, 1989, Wednesday Noon, and Wednesday Evening, November 1, 1989

American Academy of Gold Foil Operators

Minutes of Board Meeting

February 1989

The American Academy of Gold Foil Operators met in executive board session on Wednesday, February 15, 1989 in Rex III Room of the Westin Hotel, Chicago, Illinois.

The meeting was called to order by the President, Dr. Richard V. Tucker. Those in attendance were Dr. William H. Harris, Dr. Michael Cochran, Dr. Richard Hoard, Dr. Ronald K. Harris, Dr. David Bridgeman, Dr. Allan Osborn, Dr. William J. Roberts, Dr. Ralph L. Lambert, Dr. David Bales, Dr. Martin Anderson, Dr. Julian Thomas, Dr. M.E. Logan, Dr. Robert Keene, Dr. George W. Ferguson and Dr. Nelson W. Rupp. Executive member not present was Dr. Alfred C. Heston.

The minutes of the October 5, 1988 meeting were approved as printed in the January 1989 issue of the Gold Leaf.

The Treasurer's report for 1988 was read and approved. The 1989 budget was discussed and approved.

COMMITTEE REPORTS

Operative Journal – Dr. David Bales, editor

Dr. Martin Anderson, managing editor

It was reported that the Journal ended the year 1988 in the black for the first time in several years. It was also noted that the publication is operating on schedule. It was proposed that the journal publication schedule be changed from four issues per year to six issues per year beginning in January 1990. This change should make the publication more attractive to future subscribers. All were urged to seek to add 1,000 additional subscribers.

The group expressed appreciation to Dr. Bales and Dr. Anderson for untiring efforts with the Operative Journal.

Membership – Dr. Donald Benson, chairman

In the absence of the chairman, the following report was read by the Secretary: To date, 5 applications have been received for Associate membership, 3 for Life membership and 1 for Active membership. Three members requested resignation. 142 members paid dues and 45 Life members paid for Journal subscription only.

Education – Dr. Ronald Zokol, chairman

Chairman was not present. It was announced there was no report at that time.

Literature and Research – Dr. Michael Cochran, chairman

Each member of the board was presented with a copy of the "Chronological Listings of Direct Gold References." This superb publication represents countless hours of effort on behalf of the present and past committee members. The board overwhelmingly commended all participants for the exceptional amount of work and the fine completed project. It was suggested that future members of this committee keep the references up to date. The next issue of Gold Leaf will present an announcement of the availability to all interested members.

Special Clinician – Dr. James P. Verneti, chairman

It was reported that the committee is functioning but no report was available at that time. The chairman was not present.

Gold Foil Achievement – Dr. Ronald K. Harris, chairman

Dr. Harris related that his committee was not prepared to make any announcement at this time, but was at work.

Nominating – Dr. Robert Wolcott, chairman

No report was given.

Public Relations – Dr. David Bridgeman, chairman

Dr. Bridgeman requested suggestions on ways to improve the effectiveness of this committee. It was proposed that a list of area Gold Foil Study Clubs be compiled and that more association be developed between the local groups and the national organization. Dr. Bridgeman discussed the proposal that both the individual study clubs and our Annual Meeting actively prepare and seek news releases in appropriate public news outlets concerning our meetings. These releases would be professional, ethical, and informational relative to the objectives and activities of the Academy. He suggested a closer liaison between the study clubs and our Academy to coordinate all our activities. The follow-up of student achievement award recipients was also discussed.

Distinguished Member – Dr. George W. Ferguson, chairman

Dr. Ferguson reported the committee was functioning but not prepared to announce at this time.

Necrology – Dr. Paul Loflin, chairman

In the absence of Dr. Loflin, report was read by the Secretary noting the deaths of Dr. Lionel W. Bergeron, Somersworth, NH and Dr. Calvin J. Gaver, Ocean City, MD.

UNFINISHED BUSINESS

Dr. Allan Osborn reported on the International Gold Foil Meeting June 9th and 10th, 1989 in Goettingen, West Germany. He encouraged the board to refer to the January Gold Leaf for a general outline of the meeting and announced that details would be in the next issue. He also urged each person to see print-out material at the display in the foyer of the Operative Academy meeting.

1989 Annual Meeting of the Gold Foil Academy – Seattle, Washington. Dates: Tuesday, October 31, Wednesday, November 1, and Thursday, November 2. University of Washington School of Dentistry – Host School, Four Seasons Olympic Hotel – Headquarters Hotel. Dr. William Harris, program chairman, announced theme of essays: "Gold Foil Today." Dr. Michael Cochran, clinical chairman, reported all plans are in progress for the clinic session.

1990 meeting plans were announced by Dr. Robert Keene. The meeting will be in Boston, MA, with Tufts University School of Dentistry as the Host School. Dr. Keene will serve as local arrangements chairman and the meeting dates are Wednesday, October 10, Thursday, October 11, and Friday, October 12.

There being no further business, the meeting was adjourned at 5:00 p.m.

Respectfully Submitted,
Nelson W. Rupp, D.D.S.
Secretary-Treasurer

First International Gold Foil Conference

Göttingen, West Germany

On June 9th and 10th, 1989 the University of Göttingen hosted the first International Gold Foil Conference. Held in the Restorative Department, under the Chairmanship of Prof. Alex Mötsch, local arrangements were in the capable hands of Professor Georg Meyer, whilst Overall responsibility for organization in Europe lay with Dr. Joseph Schmidseider and principle co-ordinator Mrs. Sabine Schmidseider. In North America organization and coordination were the responsibility of Dr. Allan Osborn. Philips Verlag of Munich gave invaluable assistance in the hosting of the Conference.

The Meeting was an unqualified SUCCESS, the lecture theatre remained filled to capacity throughout, and the clinical portion demonstrating the very finest of Operative techniques. Let me publicly thank all those who put in such an enormous effort to make this Meeting so successful. It was a great joy to see such an aggregation of dedicated and talented Professionals assembled to promote the finest restorative philosophy, and the more impressive when it is realized that each and everyone paid his or her own way.

Allan Osborn, Editor

Didactic Session

Lecturers and Clinicians in Göttingen. From left to right: Drs. Georg Meyer, Richard Hoard, Alex Mötsch, Warren Johnson, Allan Osborn, Sarah Werner, James Gourley, Ralph Lambert, Ludlow Beamish, William Roberts, Ralph Stenberg, Ralph Werner, Ron Zokol, Harold Schnepfer, Robert Kinzer, Richard Tucker, Jan Drews, Ronald Harris, Joseph Schmidseider, and Melvin Lund.

Dr. Joseph Schmidseider introduces the meeting.

Dr. Allan Osborn introduces the speakers.

Dr. Robert Kinzer

Commenced the lecture series with a presentation upon the design and utilization of hand instruments. By demonstrating the manner in which fine cabinetry is dependent upon instruments and power equipment of various shapes and sizes to achieve a beautiful end result, an easy understanding of the principles of instrumentation in cavity design and the rationale for each type and classification of instrument was presented.

Dr. Kinzer completed his lecture by showing how these principles were applied to the class V preparation.

Dr. Robert Kinzer

Dr. Lloyd Baum

Described the phenomenon of cohesion as we experience it with pure gold, whether it is the fine crystalline, the powder or the leaf form, and then proceeded to elucidate the manner in which goldent is manufactured from the fine powder gold held in a matrix of wax and rolled in gold leaf to allow for handling in A CONVENIENT manner.

In describing the use of goldent as a filling material Dr. Baum compared the Specific Gravity of pure gold with that of the completed foil, indicating that a value of 17.2 was approximately what we achieve with a good gold foil restoration.

Dr. Lloyd Baum

Dr. Allan Osborn

Gave a presentation on the Ferrier cl V technique utilising non-cohesive cylinders or pellets to initially line the walls of the preparation prior to the placement of cohesive foil. The importance of burnishing and filing in the production of a hard, well contoured, restoration prior to discing and polishing was stressed, along with the precautions that must be taken to avoid the generation of heat during the polishing of gold.

Dr. Allan Osborn

Dr. Harold Schnepfer

Described in detail the design, instrumentation, packing and finishing of the Loma Linda cl III Lingual approach gold foil. Giving the origins of the design, and the special instruments created to allow for the refinement of the design following the completion of the drilling phase.

The approach to packing of the cavity in order to avoid any pitfalls was emphasized, including the placement of the Ferrier separator, and the control of heat when using 18" polishing strips.

Dr. Harold Schnepfer discusses his paper with Dr. Georg Myer.

Dr. Melvin Lund

Discussing a wide range of the materials utilising in Dental Practice today putting particular emphasis upon refined Operative technique, and the importance of polishing in the production of a clinically acceptable restoration.

In describing modern Composites Dr. Lund noted that these materials were successful *because* they are easy to use, but stressed that "to be successful" these materials require the same careful application as gold foil.

Dr. Richard Hoard

Dr. James Gourley

Presented a paper explaining the intricacies of the Ferrier Class II Foil. Dr. Gourley used a set of beautifully prepared line drawings created especially for this Conference to accent the clinical shots of the preparation, continuing through the packing phase to the placement of separators and the simplified finishing procedures now available to us when we take advantage of some of the more recently developed burs.

Dr. J.S. Paul

Dr. Melvin Lund and Dr. Lloyd Baum await their turn to lecture.

Following the showing of the inimitable Class V film of Dr. G.D. Stibbs, (which won a Cannes award in the technical division) the didactic session resumed with:

Dr. Richard Hoard

Who presented a paper on the symbiotic relationship between class V gold Foils and the gingival tissue. A broad range of ideal cases interspersed with a number of student "Faux-Pas" amply demonstrated the pitfalls that lurk for the unwary or injudicious operator. Dr. Hoard accented the beautiful results that can be obtained when full surgical discipline is followed, illustrating the importance of each step along the way.

Dr. James Gourley

Dr. J.S. Paul (Universitäts Göttingen)

Gave an inspiring paper showing the results of a large scale S.E.M. investigation of the clinical relationship between tooth structure and dental materials, and also that we see in a repair situation utilising different materials. Of the materials only gold foil showed itself capable of "zero tolerance" giving a reliable and actual seal.

Dr. Ronald Harris

Looked at the practical day to day uses for gold foil, giving a broad overview of margin repairs, smaller class I's and ribbon foils. Speaking to the usefulness of foil in routine practice to enhance the quality of service and the pleasure of the work. Remarkable to see was a class V which Dr. Harris had resurfaced after it had been in service for 40 plus years.

Dr. Ronald Harris

Dr. Ludlow Beamish

Spoke of the importance of Study group activity in systematically improving both the scientific and technical basis of our profession. Tracing the origins and nature of old time study clubs, along with the difficulties that the members experienced in order to attend their activities, which led us to a flourishing heritage today, where Vancouver boasts some 80 different study clubs. Dr. Beamish concluded by encouraging the conference participants to engage in study club activity.

Dr. Ludlow Beamish

Dr. Richard Tucker

Gave us the quintessential conservative philosophy, combining cast gold with deliberately planned gold foil, and further demonstrating the maintenance of the conservative environment by the later use of foil to repair area's of erosion.

The efficacy of engendering patient enthusiasm for dentistry, and promoting pride in their oral health by the use of gold foil was clearly demonstrated in the projected cases.

President Tucker congratulating Dr. Paul

Dr. Allan Osborn

Gave the final lecture of the didactic series, bringing together the work of a number of A.A.G.F.O. members whose approaches were as varied as the lesions handled. Some ultra close up photographs allowed the audience the opportunity to view the pure perfection available to the foil operator.

Dr. Allan Osborn

Dr. Kobes presents Dr. Beamish with Heritage Book.

Dr. Alex Mötsch thanks the lecturers and clinicians.

Clinic Session

Dr. Richard Hoard (Los Angeles) completing a Class V.

Dr. & Mrs. Warren Johnson pack a Class III.

Dr. Jan Drews (Überlingen, West Germany) prepares for a Class I.

President Richard Tucker (Ferndale) fine tuning a Class V.

Dr. Ted Ramage (Vancouver) polishing his Class V.

Dr. James Gourley (Seattle) with a Class II.

Dr. Giancarlo Gallo (Alba, Italy) demonstrates a Class I.

Dr. William Roberts (Houston) prepares a Class V.

Dr. Ron Harris (Indiana) exhibits a lingual Class III.

Dr. Ralph Stenberg instruments a Class II.

Dr. Ronald Zokol completing his Class V.

Dr. Sarah Werner gives a lab demonstration of the new "Baumgold".

Social Evening

President Richard Tucker gives a toast to our host in Göttingen, Prof. Alex Mötsch.

Mrs. Sabine Schmideder and Dr. Alex Mötsch.

Dr. & Mrs. Kobes — University of Göttingen.

Dr. & Mrs. Melvin Lund and Dr. & Mrs. Ronald Harris.

Romantic Road Tour

After the Conference, 17 of the participants travelled down the Romantic Highway between Göttingen and München. Cosseted in a luxurious motorcoach on impeccable roads it was hard to get any impression of movement as we travelled through a highly impressive and interesting series of Historical sites.

From the Operative Academy

NEWS RELEASE

Chicago, Illinois — February 1989

The American Academy of Operative Dentistry held its annual meeting on February 15, 1989 and celebrated the awarding of certification documents to three new members: Drs. Craig Bridgeman of Boone, North Carolina; Max Anderson of Bethesda, Maryland; and Joel Wagoner of Beckley, West Virginia.

Board Certification is a form of recognition in Dentistry for distinction as accomplished by successfully passing a three part examination in Restorative Dentistry. Over a period of three or more years the candidate takes a written exam, an oral exam on completed clinical cases and then takes a two day clinical examination.

Drs. Bridgeman and Wagoner are in private dental practice and Dr. Maxwell works and teaches at the Naval Dental Clinic in Bethesda, Maryland. They represent the most recent in a group of seventeen dentists throughout the world who have been so honoured by the American Board.

The certification system was established by the American Academy of Operative Dentistry in 1981 to promote the pursuit of excellence in dentistry in the practice, education and research in operative dentistry. As of this time, well over thirty dentists from around the world have begun the certification process.

Contact person: **Dr. Robert C. Keene, DMD**, 31 South Park Street, Hanover, New Hampshire, (603) 643-4142

Left to right: Drs. James Gourley, R. Craig Bridgman, Joel Wagoner and Maxwell Anderson.

NOTICE

"Chronological Listings of Direct Gold References"

Bound copies of the publication are now available. This reference was compiled by the Literature and Research Committee of the American Academy of Gold Foil Operators, under the chairmanship of Dr. Michael Cochran. This comprehensive, up-to-date bibliography may be purchased from the Academy. Please send check for \$25.00.

NOMINATING COMMITTEE REPORT

The nominating committee offers the following members as nominees for offices in 1989-90.

President - Dr. William H. Harris
President-Elect - Dr. Michael A. Cochran
Vice-President - Dr. Alfred C. Heston
Secretary-Treasurer - Dr. Nelson W. Rupp
Executive Council:
1990 - Dr. Richard J. Hoard
1991 - Dr. Ralph L. Lambert
1992 - Dr. Maurice E. Logan

The nominating committee is:

Dr. Perry Dungey
Dr. William Roberts
Dr. Robert Wolcott, Chair

Recipients of 1989 Student Awards

Michael Francis Arcieri, Boston University
Willie Ray Barnes, West Virginia University
Mary-Louise Berube, Tufts University (Boston)
Kevin M. Brunski, Indiana University
Geraldine Campos, Northwestern University (Chicago)
Jerome C. Cureton, Howard University (Washington DC)
Salvatore R. Cutino, University of Detroit
Cynthia M. Elberty, University at Buffalo
Adrianne P. Elcock, Temple University (Philadelphia)
Sigurd Enoksen, Baylor College of Dentistry
Robert James Ferrara, Fairleigh Dickinson University
Mark T. Frank, University of Nebraska
Rudy Garcia and Lupy Gonzalez, The Univ. of Texas at Houston
Paul Mark Hayes, University of Colorado
Poornima Jayaprakash, Marquette University (Milwaukee)
Laura Justice, University of Kentucky
Urszula M. Kufera, Georgetown University

David Gary Lester, University of California, Los Angeles
Won Moon, Harvard School of Dental Medicine
Rebecca D. Morray, Southern Illinois University
Eric Kenneth Morrison, The University of Maryland
Robin Deborah Naden, University of CA, San Francisco
Alan P. Nohr, University of Washington
Jeffrey Michael Rodney, University of Pennsylvania
Nancy Jo Soporowski, Univ. of Medicine & Dentistry of NJ
Pierre Thibault, Universite Laval
Lisa Michelle Thoms, University of Southern California
Kent Stewart Thompson, University of CA, San Francisco
Steven Witkowski, University of Missouri-Kansas City
William Wolski, Loyola University of Chicago
Catherine M. Zybak, Medical University of South Carolina
William Mulgrew, University of Alberta (Canada)
Ronald L. Winn, University of Illinois at Chicago

DIRECT GOLD TECHNIQUE

After a one year lapse, the Basic and Advanced Direct Gold technique courses will once again be offered at Indiana University School of Dentistry in Indianapolis. The courses, co-sponsored by the American Academy of Gold Foil Operators and the Academy of Operative Dentistry, were originally designed to assist educators in learning or relearning the skills involved in direct gold (gold foil) technique. In recent years, the course has been made available to private practitioners as well, meeting with a fair degree of enthusiasm by those participating.

The dates for the next course will be May 22-25 inclusive. (This is just prior to the Indianapolis "500" race, so it could be a combined trip). Cost for the four day courses, which run concurrently, will be \$100 for the Basic and \$150 for the Advanced. Both courses consist of didactic, lab, and clinical portions, with all instruments, materials, facilities and patients furnished.

Interested parties should contact: **Dr. Ronald K. Harris**, School of Dentistry, 1121 W. Michigan Street, Indianapolis, IN 46202. Telephone: (317) 274-8686.

Participants will be placed in accordance with time of application. Payment of fee will insure a place in the class. Cheques may be made payable to "Gold Foil Course".

The Second Gold Foil Course

The Second Gold Foil Course was held at the University of Zurich, June 5th to 7th, 1989. The course was conducted by Dr. Allan Osborn. There were 13 participants, the majority of whom are graduate students in the Restorative Department headed up by Prof. Peter Schärer.

The response among the participants was highly enthusiastic and they all demonstrated considerable talent.

The course involved a minimum of typodont work instead accenting clinical work on Class I and Class V lesions.

The following is a list of course participants: Dr. Urs. Brodbeck, Dr. Rolf Brönnimann, Dr. Thomas Fietzsche, Dr. Herbert Gäng, Dr. Franz Holzmann, Dr. Daniel Kälin, Dr. Konrad Meyenberg, Dr. Reto Möhr, Dr. Massimo Morandini, Dr. Georg Schwarz, Dr. St. Studer, Dr. Renato Trachsler, and Dr. Theres Wyss.

Swiss Gold Foil participants with Prof. Peter Schärer and Dr. Allan Osborn.
