1995 Dr. William T. Pike

American Academy of Gold Foil Operators PROPOSED PROGRAM FOR ANNUAL MEETING Portland, Oregon — November 2, 3 and 4, 1993

AGENDA

Tuesday, November 2, 1993

1:00 p.m. – 5:00 p.m. Board meeting of the Executive Council
Windsor Room, The Benson
1:00 p.m. – 5:00 p.m. Registration on the Mezzanine Level
6:30 p.m. – 10:30 p.m. Portland Art Museum (Optional at \$40 per person)
Dinner: Heavy Hors d'oeuvre, desserts and beverages of choice
Entertainment by the Stradivari Strings
Galleries open for viewing.

Wednesday, November 3, 1993

6:30 a.m. Registration on the Mezzanine Level
6:30 a.m. – 8:00 a.m. Breakfast Buffet for members and spouses
Mayfair Room
7:00 a.m. and 7:45 a.m. Buses leave for OHSU Dental School
Dr. Glenn Birkitt, Chairman of Clinic Program
9:00 a.m. – 11:30 a.m. Spouses Tour of Japanese Gardens
12:30 p.m. – 1:30 p.m. Buffet Luncheon — Pasta Bar, Soup, Salad, Dessert
Mayfair Room
2:00 p.m. – 5:00 p.m. All Attendee Tour of Columbia River Gorge
Spectacular (included in registration fee).
6:30 p.m. Cocktails and President's Banquet
Distinguished Member Award Presentation
Entertainment — Oregon Trail Commemorative Presentation
Installation of Officers
Mayfair Room

Thursday, November 4, 1993

6:30 a.m. – 8:00 a.m. Breakfast and Business Meeting
Cambridge Room
8:00 a.m. – 9:00 a.m. Panel Discussion — Future of the Academy
Cambridge Room
9:00 a.m. to Noon. Essay Program — Crystal Room
“New Restorative Materials”
Dr. Frederick C. Eichmiller
“Combined Direct and Cast Gold Restorations”
Dr. Warren K. Johnson
New Class 5 Direct Gold Teaching Video
Dr. Harold E. Schnepfer

Plan to give some thought to how you would like to see the Academy's future, and take part in the discussion on Thursday morning. Various suggestions have included to: continue traditionally; change to include cast gold in our theme and operations; become an operating arm of the Academy of Operative Dentistry. It will be up to the membership. If you can't attend this meeting, you may want to express your ideas in writing to the Secretary-Treasurer prior.

Officers' Slate for the Ensuing Year:

President	Ralph L. Lambert
President-Elect	Glenn H. Birkitt
Vice President	Barry O. Evans
Secretary-Treasurer	Ronald K. Harris
Councilor 1994	Ted Ramage
Councilor 1995	Frederick C. Eichmiller
Councilor 1996	R. Craig Bridgeman

PLEASE NOTE: It is always difficult to make last minute arrangements to accommodate members who suddenly appear at a meeting without having made advance reservations. Would you **please** plan somewhat in advance to avoid a difficult or impossible situation at the meeting. In the case of our foreign members, if you plan to attend but have a problem paying in U.S. currency, you may return the reservation form on page 7, indicating your preferences and then pay the fees at the meeting. This would really assist the Secretary-Treasurer in the job.

List of Operators for Portland

Foil (cavity class not given to me):

Dr. Richard W. Nash	Burlington, WA
Dr. Ronald J. Zokol	Vancouver, BC
Dr. Alfred C. Heston	Spokane, WA
Dr. Richard G. Baynes	Surrey, BC
Dr. Matt Panar	Vancouver, BC
Dr. David Thorburn	Vancouver, BC
Dr. A. Wendell Foltz	McMinnville, OR
Dr. Chester J. Gibson	McMinnville, OR
Dr. Darryl D. Farley	Aloha, OR
Dr. Kinley K. Adams	Salem, OR
Dr. Daniel D. Saucy	Salem, OR
Dr. Jan Mitchell*	Oakland, CA
Dr. Sarah J. Werner	Menomonie, WI
Dr. Clyde Roggenkamp	Goldsboro, NC
Dr. Edwin L.W. Crooks	Baltimore, MD
Dr. Allan G. Osborn	Winnipeg, MB

Casting (preparation or delivery):

Dr. Richard V. Tucker	Ferndale, WA
Dr. R. Craig Bridgeman	Boone, NC
Dr. Thomas Walker*	Portland, OR
Dr. Mike McDonald	Olympia, WA

Both (foil and casting delivery):

Dr. Bradley J. Harken	Spokane, WA
-----------------------	-------------

Those with (*) after name are not yet members of the Academy.

American Academy of Gold Foil Operators

Interim Board Meeting

February 17, 1993

Westin Hotel — Chicago Consulates Room I-III

Meeting was called to order at 3:00 PM by President-Elect Ralph Lambert, who announced that President Ric Hoard had suffered a back injury and would not be able to attend. Members present were: Drs. Lambert, Eichmiller, Birkitt, Evans, Carlson, Ramage, Bill Harris, Pike, DeLaurentis, Rupp, Schnepfer, Verneti, Roberts, Warren Johnson, Cochran, Heston, Max Anderson, Marty Anderson, Ron Harris and Nell Faucett.

The agenda for the meeting was distributed to all present. Minutes of the October 4, 1992 meeting were approved as published in the Gold Leaf in January.

The agenda was broken to allow the report by the Journal editor and managing editor. Max Anderson reported on the number of articles being submitted, and made a plea for more submissions of articles of a clinical nature, passing out a sample of such an article done by Mike Cochran. He also asked that the Secretary-Treasurer submit awards information in plenty of lead time for publication. Chet Gibson, chairman of the Distinguished Member Award committee interjected at this point to say that his group would be meeting, but did not have a copy of the criteria that were submitted. Max then stated that a leather bound copy of the issues done in Dave Bales' time be presented to him and paid for by the two academies. Motion was made and passed to pay \$75 for this effort. Marty Anderson stated that the Journal had made over \$23,000 profit in the last year, though the advertising effort had been less than successful. (Profit would normally be about \$10,000, but Creighton's subsidy for the "Adhesive Symposium" supplement made it greater).

Treasurer's Report:

A sketchy report was distributed to all present but some areas were incomplete. Following a conversation with Woody Rupp and a careful check of all entries in the books, the following report is the corrected version for the previous year:

Assets—January 1, 1993		
CDs	\$15,000.00	
Money Market	25,009.08	
Checking	5,841.23	
		\$45,850.41
Assets—January 1, 1992		
CDs	25,000.00	
Money Market	21,693.98	
Checking	632.98	
		\$47,326.96
Difference in assets 1992-1993		-1,476.55
(Note: Computer system was purchased at a cost of \$2,232.30 during the year).		
Receipts—1992	\$49,176.74	
Expenditures—1992	45,166.83	
Net gain/loss		\$4,009.91
(Note: Dues/subscription amount received [\$5,477.38] was not deposited into checking account until after January 1, 1993, which accounts for the apparent decrease in assets above).		
Dues paying members—264.		
Proposed Budget—1993		
Projected income		
Dues (264 members @ \$60)	\$15,840.00	
Interest	2,000.00	
Portland meeting	20,000.00	
		\$37,840.00
Projected expenses		
Gold Leaf	\$5,000.00	
Student awards	1,000.00	
Portland meeting	21,600.00	
Travel/meeting expenses	2,000.00	
Admin. (postage, phone, printing, etc.)	3,000.00	
		\$32,600.00

(There was some concern about the cashing in of a C.D. but the Money Market fund has increased, and there was an overall profit for the year. Also, interest on C.D.s is very low).

Ralph Lambert asked about the possibility of giving an honorarium or travel money to "outside" presenters, but this hasn't been done.

Treasurer's report and Budget were accepted.

Correspondence:

Several letters and phone messages were received from committee chairs. Univ. of Pennsylvania has already named a student for the Achievement Award.

Reports:

1993 meeting—Portland, Oregon.

Glenn Birkitt is still looking for several operators. About 1/2 of the operations will involve castings. There are 22 operators expected.

Ralph Lambert said the essay program is shaping up to include materials and castings. Harold Schnepfer offered to provide a new video on class 5 foils. Ralph also plans to spend some time on the future of the Academy, and to begin the second day session (Thursday) by about 8:30. Woody suggested compiling papers done thus far and publishing them in the Gold Leaf prior to the meeting.

Barry Evans said local arrangements are shaping up nicely with the Benson Hotel. The social events will include an evening at the Art Museum and a Columbia River Gorge tour.

Future meetings:

1994—New Orleans—will contact LSU, with Mississippi or Houston as alternates. (There could be more of a problem with casting patients in areas of less membership).

1995—Las Vegas—Loma Linda a possibility?

1996—Miami—Puerto Rico was mentioned as an option.

Committees:

(Apparently several committee chairs were not even aware of their involvement. This should be handled appropriately in the future).

1. Literature and Research—Fred Eichmiller said that the Foil references have been updated. Also, a report from HHS lists gold foil as an alternative to amalgam with advantages and disadvantages. NIST is doing metallurgy studies with condensable metals. He will elaborate on this at the Portland meeting.

2. Nominating—Bill Harris said he has one individual selected and will have another to fill the vacancy left by Bill Pike.

3. Membership—Jim Gourley (phoned that he had not been made aware of his task) Secretary-Treasurer reported that there are 143 Active, 146 Associate, 5 Honorary, 79 Life and 2 Life Active members. 27 members are delinquent in dues by at least one year. A report was requested to be made on membership trends over the past few years. This will be done.

4. InterAcademy Liaison—Mike Cochran—no report.

5. Outstanding Clinician—Tim Carlson—the committee has several prospects to consider.

6. Public Relations—Sarah Werner sent a FAX with proposed goals of the committee.

7. Education and Study Clubs—Dick Tucker—no report.

8. Necrology—Bill Roberts—no known deceased members.

9. Distinguished Member—Chet Gibson commented earlier in the meeting.

10. Ad hoc European Section—Allan Osborn had telephoned about plans for a possible meeting in Zurich in 1994. Schnepfer and Kinzer plan to be in Rome for a course this year.

11. Ad hoc Long Range Planning—Bill Harris won't be able to attend the Portland meeting. There is a plan to excerpt his report to publish for members' information. Jerry Heston suggested notifying neighboring state dental societies of the availability of our meeting, as well as placing a note in the Condenser and the Journal to promote membership. This will be tried. Jim Verneti suggested sponsoring dental students to attend our meeting and banquet. Ted Ramage noted there might be better cooperation with schools when their clinic schedules aren't as heavy.

Unfinished Business:

The hand crafted President's gavel is still missing. If anyone has knowledge of the same, its return would be greatly appreciated.

New Business:

Travel and hotel expenses for Secretary-Treasurer were discussed. This is in accordance with Academy by-laws and apparently was approved at a previous meeting, though it appeared that compensation to any officer for meeting expenses was eliminated in 1986. (The by-laws were not changed to that effect).

The meeting was adjourned at 5:03 P.M.

Dr. Gerald D. Stibbs

Dr. Gerald Stibbs, 1910-1993.

Dr. Gerald Stibbs died on Sunday, July 4th, 1993 in Seattle Washington.

Born in Schreiber Ontario in 1910 he went to school in Lethbridge Alberta, and Nelson B.C. before enrolling as a dental student at North Pacific College at Portland Oregon in 1926. Graduating ahead of his 21st birthday BSc D.M.D., it was necessary to wait out the intervening months to attain the legal age for licensure. For the next 17 years Dr. Stibbs practiced in British Columbia, first at the small interior town of Nakusp, and then during the 1930's in Vancouver.

It was in Vancouver that he helped to organize a gold foil course for the Vancouver Ferrier Gold Foil Study Club given by Dr. W.I. Ferrier. Dr. Ferrier was ecstatic about the remarkable skills displayed by his youngest student—with either hand, for 'Gerry' was fully ambidextrous.

During the years in which he was actively in Practice in B.C., Dr. Stibbs was equally busy helping to organize the Profession, serving as President of the Vancouver and District Dental Society, and The British Columbia Dental Association.

In 1948, at the invitation of Dr. Ernest Jones, Dr. Stibbs moved to Seattle to become Professor of operative Dentistry, Clinic Chairman, and Chairman of the Department of Fixed Partial Dentures. These positions he fulfilled for nearly 30 years.

At the helm of the Restorative Department Dr. Stibbs created a program that was unequalled throughout the world. It was a program that produced truly remarkable standards, redefining the very essence of the word standard. Today many students from both the undergraduate and graduate programs which he instituted are themselves influential teachers in Universities around the world.

Dr. Stibbs contributed to the literature on more than 70 occasions, including 2 award winning 16mm Movie Films. He received many Honors, Awards, and Recognitions, amongst them:—

In 1981 The Distinguished Member Award from A.A.G.F.O. in Oklahoma.

In 1984 The Award of Excellence from The Operative Academy in Chicago.

In 1986 The William J. Gies Award from the American College of Dentists.

In 1960 The Classic Motion Picture of the Class 5 Gold Foil took first Prize "All Pictures" section & "Institutional Films" section from the Biological Photographic Association.

In 1962 the same film took Grand Prize at the 2nd. International Dental Film Festival in Paris.

In 1962 the same film was selected to the Venice Film Festival.

In 1969 Dr. Stibbs co-produced with Dr. Bruce Smith a motion picture under the title "Practical Rubber Dam Application". This film was awarded the "Diploma of Honor" at the 6th International Dental Film Festival in Paris.

Dr. Stibbs is listed in Who's Who in America, American Men of Science, Who's Who in the World, American Dental Leaders, Blue Book of London, Dictionary of International Biography.

Dr. Stibbs was a member of, and a contributor to, many of the leading organizations and academies in dentistry, including A.A.G.F.O., The Operative Academy, The American Academy of Restorative Dentistry, C.A.I.C. Seminar, The Canadian Academy of Restorative Dentistry (Honorary member), and Mentored 3 study clubs.

The talents that he displayed were multifaceted and seemingly without limits, his intellect was keen, and his sense of humour delightful. All who knew "Gerry" will miss him dearly for the inspiration he imparted, for the encouragement he provided, and above all for the great leadership he gave so generously, which has enhanced and enriched not only the profession but the world in which he lived.

We extend our deepest sympathy to Mrs. Gloria Stibbs and to their three children, Denise, Gerald & Douglas. EDITOR

Future of our Academy

A report from the Ad-Hoc Long Range Planning Committee (Chaired by Dr. Bill Harris) received considerable discussion at the Executive Committee meeting held on February 17, 1993, in Chicago. This report expressed concerns about the continued viability of the Academy and several suggestions were considered regarding fundamental changes. Due to the significance of these proposals, it was decided that the entire membership should be involved in the decisions. During the next annual meeting of the Academy (Portland, Oregon, November 3-4, 1993) these proposals will be presented to the membership for discussion. A ballot requesting each member to vote on these proposals will be sent to each member along with the 1994 dues statement. The proposals to be discussed are summarized as follows:

Suggestion #1. Broaden focus of the Academy

In general, three different suggestions are to be presented.

1. No change from present emphasis on direct gold restorations.
2. Broaden clinical and lecture programs to include internally retained cast gold (i.e., inlays and onlays) as well as direct gold.
3. Open up the clinical and lecture program to include all operative procedures.

Suggestion #2.

Disassociate annual meeting from ADA location and schedule.

Advantages:

Eliminate competition with the ADA and associated meetings for hotel and meeting space.

Meetings could be held at locations other than traditional ADA sites.

Meetings could be scheduled at dental schools at a time less likely to interfere with student schedules.

Meetings could be held at dental schools not previously visited.

Disadvantages:

Would not allow members to attend ADA and associated meetings in conjunction with our meeting.

May cause a reduction in attendance due to cost of travel and time to attend AAGFO meeting only.

More difficult for members to remember and schedule time and place of meetings.

Suggestion #3.

Change name of the Academy.

If either option #2 or #3 of suggestion one is accepted, would it be desirable to change our name, and if so, what should the new name be?

Associated Ferrier Gold Foil Study Clubs

The annual meeting of the associated Ferrier Study Clubs took place in Seattle Washington on Friday May 7th.

Clinical operations took place at the University of Washington Dental Clinic during the morning, and the afternoon was devoted to golf competition.

Synopsis of a Proposal for The American Academy of Gold Foil Operators

The American Academy of Gold Foil Operators has a tradition which should not be lost. The talent, ideas, and attitudes of its members must be a continuing force in the promotion of excellence in the service of dentistry to the citizens of this country and the world.

To achieve an active interest in our mission and to continue the growth these ideas and talents deserve, we must adapt our focus and structure to ensure our organization's continuing health and success. There are many forms and methods through which this could be accomplished.

These are some questions which, if asked, might direct our thinking in making decisions for our future:

1. What would happen if we shifted our focus to a broader use of Gold materials in restorative dentistry?

2. If we met at dental schools with use of inter oral camera, video and current visual aid technology to conduct master classes for members and students as part of a joint undertaking with the school, could

we share our ideals, help schools transfer knowledge and still provide our membership with a sense of fellowship and purpose?

3. What would happen if the Academy became the primary conduit through which direct and indirect gold continuing education courses were channeled and facilitated? Could those members and others around the country/world be exposed to a larger number of interested practitioners by such a focus and facilitatory activity on the part of the Academy?

4. In view of the greater decrease on the part of dental schools for teaching direct gold and conservative indirect castings, should the Academy maintain a clinic facility for the purpose of conducting study club courses which would promote our mission and purpose ideals?

Dr. Robert C. Keene

Committee Appointments for 1992-3

Program:		Inter-Academy Liaison:		Outstanding Clinician Award:	
Dr. Ralph Lambert, Chmn.	1993	Dr. Michael Cochran, Chmn.	1993	Dr. Tim Carlson	1993

Food for Thought

In the "for what it's worth department", here are some of my thoughts regarding the future of the Academy:

1) I don't think it hurts to be a little unique and maintain ourselves as the AAGFO. In that respect, we can still have international members and continue to be called "American".

This thought or fear of becoming obsolete is not new. I remember similar conversations and concerns 10 or 12 years ago when I was new on the Board. Let's face facts—this has always been somewhat a social group, and our continued interest in using direct golds keeps us together. There are a lot less indications now than there used to be, as restorative materials have improved. We don't do many class 3's, and we have cut back considerably on class 5's. There is still a real need in the area of casting margin repairs and endo access closures, and small class 1's and cusp tip lesions are excellent indications. These are the things we should concentrate on for our clinical sessions. They could be done in less time and would impress dental students more than a four hour class 5.

2) It would be difficult with our format to include castings as a clinical demonstration. These are more suited to study clubs, and maybe we could get these groups to provide clinical presentations for our essay section. We could still include an occasional presentation on direct gold.

A number of short presentations would be best, rather than trying to use up an entire hour.

3) It would involve a lot of expense to change our name, logo, letterheads, etc. Let's just continue on with less drastic changes. We continue to attract new members so something must be working.

4) As for our annual meeting, it would be less complicated not to be tied to the ADA. Maybe a summer meeting would be possible. Host schools would not be so disrupted and it would be easier for faculty members to attend. (A foreign school is certainly a possibility as a host). Hotels would be easier to arrange and members could combine a few vacations days with the meeting. We might offer this possibility to the membership (via the Board).

5) Finally, our financial situation is not bad. I'm not sure why we are saving our money, but some of it could be given back to members attending our meeting. We could do it as a gratis welcome party, or a special tour, or provide special entertainment at the banquet. It could attract better attendance. If we wanted to, we could even say that when the money runs out, we can change our game plan, or cease to exist, whichever is more popular at the time.

Anyway, there is some food for thought!

Ronald K. Harris, DDS, MSD

Local Arrangements for Portland 1993

Date: November 2-4, 1993
Headquarters Hotel: The Benson Hotel, 309 SW Broadway, Portland, Oregon 97205
Transportation from Airport: Cab—\$20.00 one way. Airporter—\$14.00 round trip (leaves every ½ hour)
Registration: Date: Nov. 2 on the Mezzanine Level. Time: 1:00-5:00 P.M. & Wed. Nov. 3, 6:30-8:00 A.M.
Manned by Sec.-Treas. & Local Arrangement's wives
Board Meeting: Tuesday Nov. 2, 1993. Time: 1:00-5:00 P.M. Place: Regency Board Room
Pre-Meeting Dinner: Portland Art Museum
Time: 6:30-10:30 P.M.
Transportation: Bus leaves hotel at 6:25 & 6:45 P.M. to take guests to the Art Museum and will return to hotel at 10:00 & 10:30 P.M. Some guests may choose to take the short walk back to the hotel (a map will be provided).
Dinner: Heavy Hors d'oeuvre, desserts, and beverages of choice in a pleasant atmosphere.
Entertainment: A String Quartet and galleries open for viewing.

Activities for Wednesday Nov. 3

Breakfast: Wed. Nov. 3, 6:30-8:00 A.M.
Place: Crystal Ball Room, (right off of hotel lobby) Breakfast will be Buffet style
Clinical Session: Place: O.H.S.U.—Dental School, 611 S.W. Sam Jackson Park, Portland, OR
Transportation: Bus will leave hotel at 7:00 A.M. (for clinicians and assistants) & at 7:45 A.M. for observers—the bus will make as many trips as needed.
Return to hotel: 11:45 A.M. & 12:15 P.M.
Spouses Tour: Wed. Nov. 3, 9:00-11:30 A.M.
Portland Scenic Bus tour & a tour of either the Pittock Mansion (a grand late 19th century home in the Portland west hills overlooking the city) or a visit to the Japanese Gardens and their spectacular oriental beauty. We'll have to watch and make sure none of the dentists try and skip the operations so they can take this tour.
Luncheon: Wed. Nov. 3, 12:30 P.M.-1:30 P.M.
Place: Benson Hotel—Crystal Ball Room—Buffet style
All Attendee Tour: Time: Wed. Nov. 3, 2:00 P.M.-5:00 P.M.
A bus tour has been planned of the Columbia River Gorge. Stops are included at the Crown Point Overlook, the Multnomah Falls, the Bonneville Dam, and the Skamania Lodge
President's Dinner: Time: Wed. Nov. 3 Cocktails: 6:30 P.M.-7:30 P.M. Dinner: 7:30 P.M.-8:30 P.M.
Entertainment: 8:30 P.M.-9:00 P.M. Either 150 Year Oregon Trail Commemorative Pageant or an accomplished story teller with a Northwest theme.
Presentation of Distinguished Member Award

Activities for Thursday Nov. 4th
